

# ALL WEATHER SBS 190

## Product Data Sheet

### Product Description

All Weather SBS 190 is a modified bitumen membrane designed for use in modified bitumen roof systems or with conventional roofing plies in a hybrid configuration. All Weather SBS 190 consists of a tough non-woven polyester mat impregnated and coated with Styrene-Butadiene-Styrene (SBS) modified bitumen.

### Product Uses

All Weather SBS 190 Granule is the cap ply in hybrid BUR/modified bitumen assemblies. It is applied with 4-inch side laps and 6-inch end laps.

### Product Classification

Meets or exceeds the minimum performance values of ASTM D6164, Type I, Grade G.

### Application Method:

Observe all cautions and warnings when using this product. The deck surface must be clean, dry, smooth and free of any foreign materials, grease or oil. Temperatures should be between 45°F and 100°F, however; best results are achieved at temperatures of 75°F. All Weather SBS 190 Granule is applied using hot asphalt or modified bitumen cold adhesive.

### Product Information:

Property: (avg)	SBS 190 Granule
Thickness	3.8 mm (150 mils)
Weight	98 lbs/roll (44.45 kg/m <sup>2</sup> )
Dimensions	3.28' x 33' (1m x 10m)
Coverage	Approximately 1 square
Top Surfacing	Mineral Granules
Bottom Surfacing	Parting Agent
Selvage	3.75" +/- 0.25"

**Packaging:** Rolls are placed upright on ends opposite the selvage on pallets. The palletted materials are shrink-wrapped.

Number of Rolls per Pallet: 20

Number of Pallets per Truckload: 21 - 22

**Storage and Handling:** All Weather Roofing Products should always be stored on end on a clean flat surface. Rolls should never be stored flat or in a leaning position as this can deform the roll. Deformation from improper storage and/or handling will increase installation time and will make proper installation difficult. All roofing should be stored in a dry place, out of direct exposure to the elements, and should not be double stacked. Ensure that material remains dry prior to and during installation. Store material at 50°F (10°C) for at least 24 hours prior to application if the ambient temperature is 50°F (10°C) or below. If membrane is stored below 40°F (4.4°C), it must be stored at room temperature (72°F) for a minimum of 24 hours before using.

**California Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer, birth defects and/or reproductive harm.
